If you haven't chosen a web site host to support your domain name and web site, then Hostgator is the best choice. It is also easy to switch to Hostgator if you are unhappy with your present web hosting company.

Here is why Hostgator is the best:

1. It is very reliable.
2. It is very well established.
3. It is cheap – starting at \$4.95 per month.
4. It has the best customer support including a live chat function, 24 hours per day.
5. They automatically back up your website or blog every week.

Choosing the proper web site host for your website is one of your most important online marketing business decisions.
