Plug In Profit Site – Review

The Plug In Profit Site (also known as PIPS) is one of the best affiliate programs online today. I spend almost all of my “internet energy” promoting this program. Basically, PIPS is a combination program where you promote 6 of the Internet’s best affiliate programs, all in one.

The 6 programs under the Plug In Profit Site umbrella are:

1. Host4Profit
2. SFI (Strong Future International)
3. Empowerism
4. MPS – Maximum Paid Surveys
5. Traffic Swarm
6. Success University

Here is why I love the Plug In Profit Site:

A. They build a website for you when you join, so you can start promoting the program right away. Now you need to make changes to this website as soon as you can (to make it unique), however, this is really easy to do with Host4Profit.

B. You promote 6 programs (minimum) at the same time utilizing the same amount of effort that you would use if you promoted a single program. In this way, you can get 6 streams of income coming in instead of just 1 stream.

C. The Plug In Profit Site is very well supported. If you have a question, you can email customer support and get an answer very quickly. Also, there is a section of the Warrior Forum which is completely dedicated to PIPS.

D. Their training program for Internet marketing is exceptional. This program is constantly being updated to reflect the latest trends.

E. I feel like I belong to a family since I have joined the Plug In Profit Site. It is really a community as well as a business.

I have tried out many different affiliate programs over the past couple of years but, in my opinion, the Plug In Profit Site is the best of the lot. I’m going to give PIPS a big thumbs up.
