10 Important Social Networking Tips that will Help with your Strategic Internet Marketing

Using social networking for your **strategic internet marketing** plan is something that you absolutely must do to promote your website. This is especially true since the Google Panda update. Google has made it quite clear that websites which are getting a lot of attention in the social media sites will tend to rank better.

Now if you are going to put in the effort to do social networking, then you should do it in the proper way, otherwise it would be a waste of your time. Check out this report which gives you 10 tips to follow to ensure that you are doing your social networking properly.
